

## We're Rexius Records

We're not a record label. Even though we help artists, bands and music creators to evolve every day, making their music heard.

Neither are we a distributor. Even though we put our heart into developing digital tools that help us spread good tunes all over the world with smart, automatic processes.

And we're not a PR Company either, even though we work with an international network of music lovers on a daily basis.

There are many things we're not.  
And we believe that's our strength.  
We focus only in what we believe in.  
And that is helping artists help themselves.

**You bring the ambitions, the hard work and the why's.**  
**We bring the knowledge, the experience and the how's.**

We've been in the music industry for several years now,  
and we've learned, *a lot*.

**We believe in** sharing that knowledge.  
**We believe in** being fair players in an unjust industry.  
**We believe in** being the worst gatekeepers ever by leaving the door wide open.

We're Rexius Records,  
**And we're an Amplifier.**
